Testimonials and Reader Responses

"This is a book to touch the soul. So many books in today's world are fodder for the brain, but luckily, this book is not. Secret Animal Business is a book for the heart. Whether we like it or not, know it or not, every author carries a signature energy. When I read a book, I am also reading the author; so as I read this book I read Billie Dean. And this is what most impressed me. I could feel a strong soul with a clarity and determination to shine a light into an arena that for a long time has remained a shadowed place. I have shone my light, and continue to do so, but each writer's light is unique and different . . . and needed.

Read this book with your heart as open as your eyes. If the mind begins any protest, tell it to be quiet, and keep on reading. Allow Billie Dean to inner-touch your life, offering you a new and exciting direction into Nature. Telepathy with all living things is simple . . . and as easy as our busy, complex minds will allow. Nature is waiting for you, offering a new life . . . be in it!

– **Michael J. Roads, author of the bestselling Talking with Nature and Journey into Nature, and more recently, Conscious Gardening and Through the Eyes of Love**

Social visionary Billie Dean takes us on an incredible journey into the minds, hearts and spirits of the animals who share our lives. Her use of story paints a picture so illuminating that it leaves us wondering why we didn't see this truth long ago. Secret Animal Business is wonderful, and provides us with insight into becoming a better person, not only for our animal friends but for humanity.

– **Rebecca Booth, founder of Elementals Equine Therapies**

I wish this book had been around when my first dog entered my life. Our time together would have been even richer than it was. I have long believed that animals and people needed more harmony, but Secret Animal Business takes this to a whole new level. Billie Dean spells out how enriching it can be to connect to nature, whether it is the cat on your sofa, the wombat outside, or the stones in your garden.

What Readers Have Said

"I love your book - it is making so much sense, and I feel completely moved to tears when I read it. Well, done Billie, this is brilliant." - Deb M. (Victoria, Australia)

"Your book is so cool. I LOVE it! Thank you for all your hard work writing this. It is changing how I relate not only to my animal family, but the human one as well. Beautiful!" - Marta I. (California, USA)

"It's causing me lack of sleep because I cannot put it down. I love it." Evelyne S. (NSW, Australia)

"I have read your book and am on page 284. I have to tell you that I spent most of the time crying - sad tears and happy tears. I have about 1,200 books here at home, which now that I am a pensioner will start to read and also read the ones I have read....again. But I can say with confidence that 'Secret Animal Business' will be the most special one." - Martina P. (WA, Australia)

"I have just finished reading your book and have found it an inspiration (and very emotional at times). I admire your courage and commitment. I volunteer at a dog shelter at the moment and find it very emotional and sometimes hard to cope with. Someone like you help remind me of how important is to get over our own emotional to help an animal far more in need than ourselves." - Natasha T (WA, Australia)
